APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

This permit is subject to the condition that the permittee must ensure that wildlife which have customarily used such water will have access thereto, NRS 533.367.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is subject to State Engineer's Ruling No. 3672 dated January 23, 1990.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.032 cubic feet per second, or sufficient to water 1000 head of cattle and 25 horses.

Work must be prosecuted with reasonable diligence and be completed on or before December 31, 1992

Proof of completion of work shall be filed on or before January 31, 1993

Application of water to beneficial use shall be made on or before December 31, 1994

Proof of the application of water to beneficial use shall be filed on or before January 31, 1995

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed MAR 8 - 1993

Proof of beneficial use filed FEB 10 1995
